

## WHY JOIN OUR CLUB?

In this day and age this is a question many people ask themselves. While we understand that not everyone is looking to join a club we ask that you take a minute and think about the ideals that our club has been built upon.

Those ideals begin with a commitment to member services and the ability to play golf. The canvas of Olde Kinderhook is our award winning 18 hole Rees Jones course but what you paint on it is entirely up to you. It is a place to make new acquaintances, create memories with family and loved ones, experience the joys of a great shot, hole or score, or enjoy an afternoon surrounded by nature and beautiful scenery on every tee and green. It is a place to learn and improve your golf game or compete against fellow members. There are no tee times at Olde Kinderhook and waiting to tee off is generally not custom. Our course is eminently playable as it has many tee boxes as well as several different routing options that allow you to play 2,3,4,5,6 or more holes in a loop. While we encourage a reasonable pace of play you certainly will not be on a timer while at the club.

The golf shop runs a full schedule of both competitive and fun events throughout the season. Compete in our Club Championship, our Ryder Cup style OK Cup, or any number of events. Every Thursday, Saturday and Sunday the golf shop also creates pairings and formats for the membership so there is always opportunity to play with fellow members. The golf shop also provides a number of player development programs for the entire membership. PGA Head Professional Phil Kaminski is a Nike Golf 360 certified Movement Specialist as well as the owner, operator of a Flightscope launch monitor and looks forward to helping you work on your game.

As you can see Olde Kinderhook strives to be more than a golf course we look toward providing an experience for our membership. We look forward to meeting you and your friends and family and providing your golf game a home at the club.

See you on the tee,

*OKGC*
